

ADIPOCIBLE

WINTER SCHOOL

OBESITY UNRAVELED: From Cellular Mechanisms to Therapeutic Pathways

Amphithéâtre Dieudonné, Laboratoire Jean Alexandre Dieudonné, Campus Valrose, Nice, France

The aim of the Adipo-Cible Winter School is to disseminate the latest knowledge on obesity and related metabolic diseases, and to facilitate important educational exchanges that will enable both scientific and medical participants to gain an understanding of the disease and its associated pathologies from basic concepts through to the clinical management of patients.
